

IDSafeChoice Group Opt-Out Form

No one can completely prevent identity theft – but with the right help, you can recover from it! The IDSafeChoice Identity Recovery program is now part of the comprehensive benefits for our accountholders with an associated fee of only \$1.50 per month! And for this low cost, should you become, or suspect you will become, a victim of Identity Theft you will receive professional fully-managed recovery services, including:

- ◆ Services for you, your spouse, your dependants under 25 and your parents living with you, or in a nursing home, hospice, assisted living or deceased less than 12 months.
- ◆ A Recovery Advocate who will perform the steps necessary to recover your good name if identity theft strikes, no matter how it happens to you and no matter how long it takes.
- ◆ Help when you need it if your identity is compromised through theft, loss or breach.

We are counting on all of our accountholders to help us support this important group program in order to keep the cost low; however, if you do not want to participate, you can decline your membership at any time by completing the Opt-Out information below.

NO THANK YOU: I do not want to participate in the IDSafeChoice Group program at this time. I understand that if I become a victim of identity theft I will NOT be eligible for fully managed recovery services at the Group price.
